

Portland, Maine

Advising clients in New England and nationally.–

Clients rely on our geotechnical engineering and environmental consulting.

Located in the heart of downtown Portland, Haley & Aldrich's Maine office enables our experts to partner with clients on project that involve, among other areas:–

- [Construction](#)
- [Contaminated site management](#)
- [EHS compliance](#)
- [ESG and sustainability](#)
- [Geotechnical engineering](#)
- [Lean consulting](#)
- [Resilience](#)
- [Water resources](#)

Our [award-winning work](#) in Maine has helped keep critical infrastructure operational and safe. For example, through the collaborative design of the [foundation system](#) for a new bridge for Beals Island, we strengthened the community's only road to the mainland.–
