

San Diego

A Haley & Aldrich hub for Southern California clients.–

Clients rely on our geotechnical engineering and environmental consulting.–

Overlooking the San Diego River, this office supports clients in Southern California and across the country with geotechnical and environmental consulting services related to:-

- [Construction](#)
- [Contaminated site management](#)
- [EHS compliance](#)
- [ESG and sustainability](#)
- [Geotechnical engineering](#)
- [Lean consulting](#)
- [Resilience](#)
- [Water resources](#)

Our team supported the [San Diego International Airport](#) in developing and implementing a water stewardship plan, just one of the ways we've impacted the community and Southern California.-
