"We couldn't do it without our network of partners and clients, who help make this tournament a success."

Haley & Aldrich has worked with Boston Children's Hospital to design and build facilities for over 50 years. Recent projects include the 11-story Hale Family Building, which features a state-of-the-art neonatal intensive care unit, a cardiac clinic, the Needham Ambulatory Building, and other critical patient care facilities, as well as geotechnical and environmental engineering design support for the partnership between Boston Children's Hospital and Franciscan Hospital for expansion of the Franciscan Hospital campus in Brighton, Massachusetts.

Mass General Brigham is also a long-term partner, with Haley & Aldrich contributing to projects for its member institutions for over 30 years. For instance, Haley & Aldrich helped Brigham and Women's Hospital, a founding member of the Mass General Brigham organization, with the below-grade design of a 400-car parking garage below Stoneman Centennial Park. The firm is currently supporting the Faulkner Hospital expansion and master plan studies for Brigham's main campus in Boston.
